

Dear Sir/Madam,

Please be informed that with effect from 2nd September 2016, if the P.R.C. Passport holders have a valid visa from United States of America (B2) or Schengen, they can apply for permission to enter Argentina for tourism purposes only through an on-line application, paying a fee of US\$50 through the link listed below.

For business visa application, the procedure remains unchanged; please contact us for further information.

In the cases of PRC nationals, holders of passports different than the "ordinary passport", the procedure for the consular visa remains unchanged.

Please find the web link

here: <http://www.migraciones.gov.ar/accesible/indexP.php?reciprocidad>

In this link, you will find two modules: "enter here to pay the rate" and "enter here to fill in the form"; **firstly**, please pay the fee and print out the receipt, **then** please continue to fill in personal information at right side module. Please disregard any letter when entering the passport number; the ID transaction code is the sticker number which appears on the receipt. Please remember to have a PDF file with all the scanned valid passport sheets (clearly scanned and including the US or Schengen visas). Complete all fields with Pinyin. (请注意必须扫描有效护照所有页面并且生成PDF文件档). After 10 working days for processing; you will receive from Immigration Department in Argentina either an "Approved" document from AVE or "Not Approved", indicating the reason.

According to the instructions, applicants have to do this procedure by themselves; this Consulate will not be involved and take no responsibility on it.
